How are we crushing crime?

Crime Crushing Crypto Currency Inc. is (the creator and developer of the Crime Crusher and has been completely designed with programs) , and strategic techniques strictly geared towards crushing crime through the annihilation of the poverty conditions around the world that promotes criminal development. These poverty conditions promote the development of criminal thinking due to extreme under educating as well as a lack of greatly needed empirical evidence based curriculums. An absence of empirical evidence based curriculums is a preparation for failure.

With One Billion Crime Crushing Coins Existing! We only have 874.95 million C4 coins available for sale at the time of this writing because 125.5 million C4 coins are already reserved within an account design with programs to annihilate the thought of wanting to do crime all together.

1 Billion Crime Crushing Coins Exist! Take a Look:

5.5 Million coins are set aside for 2.5 million inmates incarcerated, period after incarcerated. Each of the 2.5 million inmates must earn coins individually by advancing through the curriculums brought forth and designed for the 2.5 million residing within the prison system and who are convicted under the 13th amendment. These curriculums are offered to the 2.5 million inmates so that they to are afforded a genuine opportunity to rebuild and restructure their minds in order to build better character which will in turn prepare them for entering back into society. This program is geared towards future transitioning as well as successfully releasing people back into our society after prison. The goal of the Crime Crushing supporting curriculums is to ensure that the inmates have been taken away from conditions of mental and physical poverty which would otherwise promote the conditions that influences the criminal mind to surface.

20 Million coins are set aside for The Teenage Foster Children's Financial Literacy Program because there is a great need to address the lack of seriousness taken when it comes to these children's education. Many foster children's educational needs are not addressed or taken seriously because unfortunately their livelihood is often being led by individuals who take the monthly pay and benefits for keeping these foster kids more serious than the education that is greatly needed throughout these kids adolescence. Unfortunately this misguidance amongst the foster care community often results in a criminal status for the child involved; as has been proven many times to result in a criminal status upon turning 18 years of age and kicked out of the system of foster care.

50 Million coins are set aside for college students who experience stress and make careless decisions due to debt they will incur while seeking to established a career based lifestyle throughout the college experience. Many of these students become victims of the criminal law systems even after college and destroy their careers due to the habitual behavior of criminal actions they develop during their college years of learning or trying to cope.
